

## An Omega-3 supplement for cardiovascular and joint health

### order details

#### SKU #0065 Herbalifeline®

Volume Points: 25.75  
Packaged: 90 softgel capsules  
(30 day supply)

#### Directions For Use:

Take one to two softgel capsules three times a day, preferably with meals.

Herbalifeline® is an excellent way to supplement your daily intake of Omega-3 fatty acids, with its exclusive blend of highly refined marine lipids containing eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA) for cardiovascular and joint health.

#### Key Benefits:

- A valuable source of Omega-3 fatty acids to promote good health
- Omega-3 fatty acids can provide temporary relief from arthritic pain
- Helps maintain healthy cholesterol and triglyceride levels that are already within a normal range
- May assist in maintaining peripheral circulation and promoting general health.

#### Why You Need It:

In the human body, essential fatty acids play a multifunctional role:

- Key component in the membranes of all cells
- Essential for normal health and development
- Important for fat transport and metabolism
- Converted into prostaglandins – these hormone-like substances are considered to be essential for proper brain function, improving immune function and helping to reduce inflammation

Many diets lack sufficient essential fatty acids, especially the important Omega-3 fatty acids. These fatty acids are essential because the body cannot produce Omega-3s and must obtain them from dietary sources.

#### Key Ingredients:

**Omega-3 Triglycerides** - Essential fatty acids, eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA). These Omega-3 fatty acids help to maintain a healthy cardiovascular system by maintaining cholesterol and triglyceride levels already within a normal range.

**Vitamin E** - Antioxidant to help preserve the freshness of the fish oil.

**Thyme, Peppermint & Clove Oils** - These essential oils help improve digestibility.

#### Did You Know?

Herbalifeline® is made from wild (not farmed) sardine and anchovy fished in cold pristine waters off the South American Coast.

To consume the Recommended Daily Intake (RDI) of Omega-3's, you would need to eat almost nine cans of tuna daily! Most people are pushed to consume one portion of fish per week.
