

Support your body's natural defences

RoseOx* is beneficial for anyone who may not receive an adequate intake of antioxidants and phytonutrients throughout their daily diet. It helps to protect your immune system and may help counter the effects of pollution, stress and poor diet.

Key Benefits:

- A powerful blend of phytonutrients with antioxidant properties
- Helps to protect the body's cells by acting as a free-radical scavenger
- Is beneficial for individuals who may not receive an adequate intake of antioxidants and phytonutrients through their daily diet.

Why You Need It:

The importance of antioxidants for maintaining good health cannot be understated. Today many of us survive on ready-meals, fast food and denatured produce. RoseOx* includes the antioxidant properties of rosemary, cruciferous vegetables and other herbs to help ensure an adequate intake of these vital nutrients.

RoseOx* is a herbal dietary supplement made from Rosemary extract and blended with an exclusive combination of herbs.

Key Ingredients:

Rosemary - commonly known and widely used as a culinary herb. Originally from the Mediterranean, it reputedly first arrived in England during the 14th Century. Rosemary contains more than a dozen antioxidants, one particularly potent - rosmarinic acid. Herbalists consider Rosemary ideal as an all-round tonic and for providing a natural uplifting effect.

Turmeric Extract – contains Vitamin C, Vitamin E, and carotenoids.

Cruciferous Vegetable Mix – contains nutrient rich powders of broccoli, cauliflower, cabbage and carrot.

Tomato Extract – rich in Vitamin C and the phytonutrient lycopene.

Clove Extract – antioxidant.

Did You Know?

An antioxidant is a nutrient capable of disabling free radicals. They act as our internal fighting system, reducing cell damage. During metabolic processes in the body, free radicals are produced as a normal by-product of oxidation.

A build-up of free radicals can damage healthy cells, so the body uses natural defence mechanisms to rid itself of these free radicals. These natural defence mechanisms are called antioxidants. However, many factors increase free radical production, such as stress, poor diet, and pollution.

order details

SKU #0139 **RoseOx**

Volume Points: 23.75
Packaged: 30 tablets
(30 day supply)

Directions For Use:

Take one tablet daily, preferably with a meal.
